

13TH ANNUAL **ALLIANCE GRADUATE SUMMER SCHOOL**

“Sustainable Development at the Interface of Global
North and South”

Paris, France | May 28-31, 2024

The Alliance Network is pleased to announce its thirteenth annual summer school for research in sustainable development. The four-day program is geared toward graduate students in economics, environmental sciences, public policy, business, and related fields. It will feature:

- Presentations from world-class researchers
- Opportunities for student presentations
- Applications to policy questions in sustainable development, climate, energy, health, data science, and more
