

The Duke Master of Engineering in Financial Technology (FinTech) program, in collaboration with the Student Trading Lab at Interactive Brokers, is excited to announce the 2023 FINTECH Trading Competition, to take place during the 2023 Fall Semester.

## Overview

The Trading Competition gives students the opportunity to develop and try out investment strategies by trading a wide variety of real financial instruments—using real-time market data—without committing actual capital.

Participating students will be issued \$1 million in simulated currency within a paper trading account provided by Interactive Brokers (NYSE: IBKR; url: <https://www.interactivebrokers.com/>).

Trade in real-time, just like an actual portfolio, while gaining exposure to the same user interface and features utilized by professional traders!

## Rules

- **This opportunity is open to all undergraduate and graduate students in the US.**
- Competition begins on Wednesday, 11 October 2023 at 9:30AM EST and ends on Friday, 15 December 2023 at 4:00PM EST. Trades made outside this time range will not be considered for scoring purposes.
- Participants will be ranked by risk adjusted return (measured by Sharpe Ratio) earned by their portfolios over the course of the competition.
- For a complete list of rules and detailed scoring methodology, visit the registration link provided.

## Prizes

- ◆ 1<sup>st</sup> Place: \$2,000
- ◆ 2<sup>nd</sup> Place: \$1,334
- ◆ 3<sup>rd</sup> Place: \$834
- ◆ 4<sup>th</sup> Place: \$500
- ◆ 5<sup>th</sup> Place: \$334

Prizes will be awarded in **USD**, and will be updated as the competition progresses.
